Marketing communication

## A successful and consistent approach

In the first half of 2023, in a market environment characterised by high inflation rates and uncertainty, LGT achieved a group profit of CHF 223.6 million (+3%). LGT saw continued strong net new asset growth and recorded very strong net asset inflows of CHF 15.8 billion. Assets under management increased to CHF 305.8 billion (+6%), for the first time exceeding the CHF 300 billion mark. LGT is very well capitalised and maintains a high level of liquidity.

## General positioning

LGT is focusing exclusively on private banking and asset management and is geographically broadly diversified covering attractive international and domestic growth markets. The Group has banks in Liechtenstein, Switzerland, Austria, Singapore and Hong Kong. These five financial centres all benefit from top ratings by Standard & Poor's (BICRA 2 and 3).

## Strong credit ratings

LGT Bank Ltd. is one of the few pure private banks whose credit quality is rated by both Moody's and Standard & Poor's. The creditworthiness of its parent group, LGT Group Foundation, is fundamental for the rating. The strong ratings are based on both the solidity of LGT's balance sheet and earnings strength.

	<b>Moody's</b>	<b>Standard &amp; Poor's</b>
Long term rating	Aa2	A+
Short term rating	P-1	A-1

- Outlook: Moody's – stable; Standard & Poor's – stable.
- The Moody's rating was first accorded in 1996, S&P has rated LGT Bank since January 1997.
- The short-term ratings of Moody's (P-1) and S&P's (A-1) belong to the highest possible category of the respective rating agency and show that the rated institution has a strong capacity to repay short-term debt obligations.
- LGT Bank is the largest Bank in the Principality of Liechtenstein, which itself enjoys the highest possible sovereign rating of AAA (S&P).

## Strong CET 1 ratio

The common equity tier 1 capital ratio (CET 1) is a core measure of a bank's financial strength from a regulator's point of view and is based on the guidelines of the Basel Committee on Banking Supervision. As of June 30, 2023, LGT had a CET 1 ratio of 19.5 percent versus a regulatory minimum of 12.7 percent.

### Comparison of CET 1 ratios in percent (as at 30.06.2023)

<b>LGT</b>	<b>19.5</b>	HSBC Holdings	14.7	Société Générale	13.1
BNP Paribas	13.6	ING Group	14.9	Standard Chartered	14.0
Citigroup	12.5	JPMorgan Chase	13.8	UBS Group (31.12.2022)	14.2

EFG International	17.3	Pictet Group (31.12.2022)	27.1		

### Solid leverage ratio

The leverage ratio is a key component of the Basel III framework and its implementation in the European Union (EU). The leverage ratio measures a bank's regulatory tier 1 capital (numerator) to its total business volume (denominator). A low ratio therefore represents a high level of debt relative to tier 1 capital.

#### Comparison of leverage ratios in percent (as at 30.06.2023)

<b>LGT</b>	<b>7.8</b>	HSBC Holdings	5.8	Société Générale	4.2

EFG International	4.6	Pictet Group (31.12.2022)	6.8		

### Sound, client-based refinancing

The structure of LGT's liability side of the balance sheet has been constant for many years, with most of the Bank's refinancing coming from client deposits (currently 74 percent) and equity capital (currently 10 percent). Client deposits remained high in 2023, with clients attracted by conservatively managed balance sheets such as at LGT.

On June 30, 2023, LGT's liabilities of CHF 59.4 billion were composed as follows:

▪	CHF	6.1 bn	(10.3%)	shareholders' funds
▪	CHF	43.9 bn	(73.9%)	deposits from clients
▪	CHF	4.3 bn	(7.2%)	lending from banks
▪	CHF	5.1 bn	(8.6%)	others

### High quality assets

On June 30, 2023, LGT's assets of CHF 59.4 billion were invested in the following categories:

▪	CHF	18.2 bn	(30.6%)	lending to clients
▪	CHF	13.7 bn	(23.1%)	interbank lending
▪	CHF	4.3 bn	(7.3%)	current account at central banks
▪	CHF	17.2 bn	(28.9%)	financial assets
▪	CHF	6.0 bn	(10.1%)	others

LGT's assets have always been managed in a disciplined and conservative way which is reflected in the current strong quality of LGT's asset base

- LGT applies a prudent lending policy to clients. It practically only grants collateralised loans ("Lombard loans") against pledging of custody accounts and mortgages focused on residential properties and in combination with private banking assets mainly in Liechtenstein and Switzerland as well as high-quality international mortgages in prime locations. Thanks to strict lending guidelines credit losses have always been very low.
- LGT's Princely Portfolio has a strong track record of more than 20 years in terms of risk and return and is considered as a long-term investment by the Princely House of Liechtenstein.
- In order to manage its liquidity, LGT grants uncommitted short term lendings within the interbank market and invests into short term money market papers. Both asset categories are highly diversified with a large number of mainly European banks of prime quality. Almost 76 percent of LGT's money market lending and money market papers exposure have a rating of at least "AA", and over 98 percent have a minimum rating of "A". LGT closely monitors these positions and follows strict criteria when assessing a counterparty's creditworthiness.

### Strong liquidity, conservative asset and liability management

Due to its sound refinancing base and the high quality of its assets, LGT Bank's liquidity ratio is significantly above the regulatory required minimum. LGT's extremely prudent balance sheet management is based on conservative maturity gaps between its assets and liabilities.

#### Comparison of liquidity coverage ratios (LCR) in percent (as at 30.06.2023)
