Pfaeffikon/Zurich, 16 June 2022. **LGT Capital Partners is pleased to announce the final close of Crown Impact S.C.Sp., its first impact-focused private equity investment fund, at USD 550 million.**

Crown Impact S.C.Sp. ("Crown Impact"), LGT Capital Partners' first dedicated impact fund, which closed on 31 May 2022 at USD 550 million, significantly above its initial target size of USD 350 million due to strong investor demand and a growing investment opportunity set. Crown Impact invests in highly impactful companies across three core impact themes: climate action, inclusive growth and healthcare. The fund focuses on co-investments alongside leading conventional and impact managers, complementing the portfolio with impact primary and secondary fund investments. In addition to rigorous investment due diligence, these opportunities are subject to an in-depth impact assessment, which includes their alignment to the UN Sustainable Development Goals ("SDGs") and the underlying targets and indicators. The fund's diversified investor base includes pension funds, insurance companies, endowments and family offices across Europe, Latin America, Asia and Australia.

Ivan Vercoutère, a Managing Partner at LGT Capital Partners, comments: "We are pleased to have seen significant interest from investors for our first dedicated impact program. In light of the powerful drivers for sustainability and inclusiveness, we will be able to select highly impactful and attractive investments from a continuously developing set of opportunities.
